POLICY AND PROCEDURES

HOMEWORK POLICY

POLICY

The School believes homework is an integral part of the teaching process from Junior School onwards. The purpose of homework changes and develops as a student moves through the school.

Homework is a number of tasks or activities which students are asked to do on their own or where appropriate with their parents and peers in order to reinforce curricular objectives and learning outcomes. Homework will also enhance the learning experience and instill good work habits for the future.

The amount of homework assigned normally increases from year to year. Homework helps to build – positive home/school partnerships. It assists teachers to assess the students’ knowledge and understanding of the current lessons and the students’ ability to carry out tasks in an independent manner.

Teachers need to ensure students have recorded all homework set.

Homework guidelines:

• Instructions for homework should be clear
• Homework should be interesting and rewarding for all students
• Integrated into everyday planning and set by the class/subject teacher
• Differentiated to cater for individual students’ learning needs
• Students work to be assessed promptly and appropriate feedback given to the student.

PROCEDURES /GUIDELINES

• She/he will check planning for evidence of a range of homework tasks and differentiation
• She/he will take samples from each class of homework tasks set and students’ completed work, paying particular attention to assessment and feedback
• Classroom observation by appraisers will include reviewing feedback to students, type and quantity of homework set.

Ultimately, homework should provide a student with an opportunity to consolidate their knowledge, appreciate time constraints, and for a teacher to assess the progress of each student through independent learning.
