DISCOVERING POTENTIAL • LEARNING TO CARE • RESPECTING DIFFERENCES

4th December 2019

MIGS/ADM/T1/JS/PS/2019-0169

Dear Parents

Term 1 : Interdisciplinary Learning Celebration

We would like to invite you to join Junior School IDL Learning Celebration 2019.

DATE: Friday, 6th December 2019
LOCATION: Opening in the school hall and presentations in the Junior classrooms

10:15 am	Parent Welcome
10:30-10:45 am	Opening in School Hall
10:45 -12:00 pm	Year Level Presentations

*Kindly arrive on time as we aim to begin promptly.

Our students have planned a morning to showcase their learning and an opportunity to celebrate the learning journey with you.

Project based learning and the skills-driven by it, have become an integral part of our teaching and planning in the Junior School, to help students design, plan, innovate and make connections with other subject areas of learning. The student engagement in their learning areas through the term has guided them in enhancing skills of creativity, research, communication, critical thinking and collaboration! Please take this opportunity to visit all the year groups as it is open to all parents.

The following schedule should be helpful during your visit.

	ID Learning Overview	Integrated Subjects	Location	IDL team of teachers
Year 6	Architecture and Design Learners connect Maths study of shapes and nets with the design study of the architectural landmarks of 8 different cities around the world. Learners extended the study of famous authors and myth/legend/tales that originated from the places of study, while making comparison with the geographical location and historical knowledge.	Mathematics, English, Social Studies, ICT	Y6 class area	Ms. Sharon, Ms Fay, Ms Jade
Year 5	The Earth And Beyond Learners understand the geographical features, relative movement, shapes and sizes of the planets, including the Earth, the Sun and the moon making connections with the rest of the solar system and human's exploration of space.	Science, Social Studies, English, Art & Design, ICT, Mathematics	Class 5R	Mr Rushen, Mr Muhamad, Ms Shafizah, Mr Bobby

Year 4	Ancient Civilisation: Learners study the Roman civilisation, the characteristic features of their daily lifestyle, education, varying arts, games and buildings in the Roman period.	Science, Social Studies, English, Art & Design, Mathematics, ICT, Music	Class 4R	Ms Esther, Ms Jasveen, Ms Asma
Year 3	Plants and Weather Learners observe the growth, changes in plants and explore the importance of them. They also understand the need for humans to protect plants and their habitats while understanding the weather conditions around the world.	Science, Social Studies, Mathematics, English, ICT, Art & Design, Music	Class 3S	Ms Kumud, Ms Patmni, Ms Lim
Year 2	The Way the World Works Learners spent time discovering the features of an island and life that surrounds it. Also looking at the movement of the sun, making connections to tides and shadows and how it changes in length and direction of shadows at different times.	Social Studies, Science, Mathematics, English, ICT	Class 2S	Ms. Stella, Ms Priya, Ms Vicky, Mr Yap
Year 1	Sharing Planet Earth This IDL theme allows students to identify many sources of sound. Learners have spent their time brainstorming, sharing ideas, exploring and observing different sources of sound and making musical instruments.	English, Science, Mathematics, Art & Design, Music	Class 1R	Ms. Sukhwant, Ms Izyan, Ms Shahnaz, Ms Sangeeta, Mr Khairul
Reception	Space Our little learners explore different types of space elements with a basic understanding of the solar system, gravity and constellation.	Understanding the World (Science), Mathematics, Art & Design, English, Sensorial Play	Reception classroom	Ms. Sheena, Ms. Jaspreet

We look forward to seeing you on December 6th, 2019.

Sincerely,

JOANNA JOHAMI
Head of Junior School

JOHN P. BIRCH
