

23th June 2020

Dear Parents/Guardians,

COVID-19: Health Screening for Year 10 Students

As the Year 10 students are coming back to School tomorrow, we would like to remind all parents to monitor your children at home and seek medical attention if your children are not feeling well and show symptoms as below (before sending them to School):

- fever over 38°C
- coughing
- difficulties in breathing
- cold/runny nose

We strongly advise to allow your children to rest at home and see a doctor if they show symptoms as mentioned above. Please do not send them to School until medically certified fit for school and symptoms are cleared.

We will conduct **Covid-19 health screening (temperature monitoring & its symptoms)** closely in line with Malaysian Health Authorities' procedures to all Year 10 students arriving at School daily at the Main Porch Entrance.

Temperature will be checked while students are still seated in the car. When the body temperature shows normal reading without any other symptoms as above, the student will be allowed to get down from the car. Hand sanitizer will be given to clean their hands first before entering the School. In the event a student's temperature registers a **minimum of 37.5 degrees Celsius or having symptoms as mentioned above**, he/she will need be taken to the doctor immediately.

Students must wear a mask at all times at School and hand sanitizers are available all around the School. We will constantly remind the students to maintain good hand hygiene and ensure they keep 1-meter social distancing throughout the School session.

We would also like to assure you that our students' health and safety is our utmost priority and we will continuously adhere the ministry's advice to ensure all the Covid-19 precautionary measures are in place to safeguard their well-being.

Thank you.

Yours sincerely,

.....
Ms Reka (RN)
School Nurse
